## WHY IS THIS REPORT USEFUL?

The **Executive Dashboard Main KPI Cards** report provides a concise overview of key financial performance indicators (KPIs) based on the BWA (Business Management Reporting / Betriebswirtschaftliche Auswertung) system.

## CUSTOMER BENEFITS

**Transparency of key KPIs:** quick access to the most important financial indicators.

**Consistent reporting:** uniform calculation method for easier analysis.

**Printable format:** convenient monitoring of financial data in a standardized layout.

## WHO MIGHT FIND THIS REPORT INTERESTING

**Executives and senior management:** for making strategic decisions based on key financial indicators.

**Accountants and analysts:** for in-depth analysis of financial performance and reporting.

**Business owners:** for monitoring financial health and making informed business decisions.

## WHAT FIGURES THE REPORT SHOWS

The KPI Card Report in the Management Dashboard displays a chart of selected values for the specified year.

- In the PDF version, only one calculation type (AC or YTD) can be selected.
- The data in the report is generated based on predefined filters (e.g., year, BWA formula, selected accounts).
